

Tarique Hussain

As a graduate with a Bachelor of Technology in Mechanical Engineering, I have proven success designing & implementing manufacturing process and production lines with advanced understanding of engineering principles to optimize process design. Moreover, I have an in-depth understanding of mechanical & manufacturing concepts, computer integrated manufacturing, and automation. I have experience planning, implementing, and overseeing end-to-end process improvements with a track record of standardizing plant layouts, project managing equipment and, arranging facilities to improve overall productivity and efficiency. I am also well-versed in Lean Manufacturing, including waste and cost reduction, process improvement, ramp up speed, and resources allocation. I am skilled in Design for Manufacturing and Assembly (DFMA) to reduce number of Components in an assembly, reduce parts used, and process efficiency improvements. In sum, I excel at managing key production and process improvement projects with a key understanding of technical business management, financial systems, innovation, and Lean manufacturing. I am a highly capable team leader, collaborator, and innovative designer.
